

# Dutch professors and recruiters will visit Mexico City on Saturday March 28 looking for masterstudents to do a PhD

## PhD Workshop

AcademicTransfer -the Dutch jobboard for academics- has invited Dutch professors and recruiters to visit Mexico City on Saturday March 28, to meet and greet Mexican (research) master students that are willing to do their 4 year PhD at one of the top universities in The Netherlands. You can apply for a 20 minute speed-dating interview with one of the professors by registering and sending in your resume and research proposal.

## Free registration procedure

If you have obtained your masters degree, you are eligible to register for this event for free at

<https://mexico.schedul.org/students>

On this website you will be able to review the professors and their research areas. You can apply direct by a professor by uploading your CV and research proposal, and ask for an interview. If the professor grants you the interview, an automatic scheduled appointment will be planned on March 28. All academic fields are covered by the professors and recruiters!

## Venue location

The PhD workshop will be held at Hotel Sheraton Maria Isabel, Paseo de la Reforma 325 in Mexico City. If you have no confirmed appointment with a professor, there is little reason to attend. However, there will be a Holland Science House with information about doing a PhD in The Netherlands and presentations from scholarship providers.

”

This could be your opportunity to do your full PhD at one of the highest ranked universities in the world, in the center of Europe:

The Netherlands.

Jeroen Sparla, CEO AcademicTransfer

## Partners

This PhD workshop is organized by AcademicTransfer and fully supported by Nuffic Neso Mexico and the Embassy of The Kingdom of The Netherlands. AcademicTransfer has a long standing track record in reaching out to international talent, and already does so for over 20 years on behalf of all 14 Dutch Research Universities, the University Medical Centres and Research organisations KNAW and NWO.

## Scholarship

When selected to do your PhD in The Netherlands, you are supposed to finance through a scholarship by applying at organizations like Conacyt. Since the Dutch universities will waive tuition fees, Conacyt would be able to fund 4 instead of the 3 regular years for living costs for a PhD. Additional funding can be found through organisations such as FIDERH and Funed.

## > Register now

Make sure to register in time, so the professors have time to study your CV and proposal. If doing research on a top ranked university is your dream, make sure to attend!
